

THE WORLD OVER

ROYAL COUPLE BACK AT HOME
BRITAIN BACK TO 80 PER CENT
OF PROSPERITY PEAK

LONDON — Embarrassed and happy, the Duke and Duchess of Kent landed at Croydon Airfield last week after a flight from Paris, completing their wedding trip abroad.

The royal couple entered the Duke's sport car and he, himself, drove it home.

"I am very glad to be home again," said the Duchess.

They will be "cousins of honor" at Sandringham when the royal family gathers for the Easter holidays.

LONDON — Full restoration of the civil service wage cut imposed in the crisis of 1931, with income tax concessions in the lowest grade, were features of another balanced budget presented last week to the House of Commons.

Neville Chamberlain, Chancellor of the Exchequer, after pointing to the substantial progress achieved in the past year budgeted for a surplus again in the coming 12 months and mildly observed the results achieved in this country had no parallel abroad.

"We have regained 80 per cent of our prosperity," he declared.

Concessions in regard to income tax methods of assessment; increased exemption for married men and increased for children allowance; abolition of the entertainment tax on theatre seats costing not more than a shilling; reduction in the entertainment tax on more expensive seats for performances other than "movies"; full restoration of the former 10 per cent civil service wage cut; concessions to license duties on public houses.

Practically the only changes in duties are: Lowering the duty on duty on sugar; increase in the duty on

ACME CREAMERY SOLICITS YOUR CREAM SHIPMENTS

Mr. Borch, operator of the Acme Creamery was in town and district on Monday of this week and in an interview with the editor stated that he was out after the cream business of the Carbon and surrounding districts. Highest prices are paid for cream at the Acme concern and fair grading is assured the farmer and shipper. In an advertisement appearing in this issue the Acme Creamery asks for a trial shipment and provides an address coupon to be pasted or tagged to your cream can for shipment to their plant. At the present time cream trucks are visiting the farm houses and picking up the cream for delivery to the creamery. The your next can to the Acme Creamery and it will be delivered to its destination.

RENEW MOUNTED POLICE CONTRACT

EDMONTON — The Legislature on Saturday voted 4 to 8 to authorize a five-year renewal of the contract with the Royal Canadian Mounted Police to see to it that law and order is maintained in the province.

The House was told the existing arrangement expires May 31 and that the old provincial force had cost \$450,000 a year, while the present agreement costs \$225,000.

heavy oil for vehicles to eight per cent increase in the duties on rice in the bulk and soy beans, and amending of the western's customs declaration of value of goods.

Seeding Commences Friday; Moisture Conditions Good

Seeding of spring wheat commenced in the Carbon district on Friday of last week, after a three weeks' delay due to unfavorable weather conditions. While only a few farmers were on the land last week end, Monday of this week saw a great rush among agriculturists to begin seeding operations.

If weather conditions are favorable, wheat seeding in the district will be completed within about ten days to two weeks, with practically the same acreage sown in wheat as last year.

While the late spring has caused some anxiety to farmers throughout the district, many believe that with the present season moisture conditions will be improved. Coupled with this is the actual experience that a late spring has usually produced an abundance of summer moisture, and good crops in the prairie provinces.

Moisture Conditions Good.

Moisture conditions in the Carbon and surrounding districts are said to be excellent. We had rain last fall before freeze-up, and more snow than usual throughout the winter. This spring has seen plenty of moisture.

While the late spring has caused some anxiety to farmers throughout the district, many believe that with the present season moisture conditions will be improved. Coupled with this is the actual experience that a late spring has usually produced an abundance of summer moisture, and good crops in the prairie provinces.

Garden Being Planted

If the farmer can get on the land, so can the small gardener, as it is decided this week when we have noted for garden plots are being prepared for the summer season. As it is usually the first of May before the average garden plot is plowed, there should be no late crop for the early gardener and it is possible that the old saying "The early bird catches the worm" will hold true for 1935.

THE WHEAT SITUATION

The record of devastation caused by drought, high winds and drifting soil in midwestern United States, spread by newspaper reports, magazine stories and the radio resulted in a rush by wheat and the prospect of the speculative public buying carried away in another wild bullish wave last week. After being comparatively dormant in the face of stronger markets abroad, the Winnipeg Exchange spring to life and prices shot up quickly. As wheat reached the 40 cent mark selling came into the pit credited to John I. McFarland. This stimulated the market and created a runaway.

There is no doubt about the seriousness of the damage to the winter crop in Eastern Kansas, Nebraska, Oklahoma and Texas. From this area comes the margin of wheat which is usually considered the exportable surplus in the United States. The average acreage needed to winter wheat age acreage needed to winter wheat in the United States is approximately 23 1/2 million acres and the average yield 23 million bushels. The acreage sown in western Canada last year was approximately the same — about 23 1/2 million acres and by a peculiar coincidence the yield 23 million bushels was the same. One can thus visualize the extent of the disaster in the United States by comparing the yield and acreage with Western Canada. If one-half of our acreage was wiped out by late storms and the rest in poor condition the situation would be comparable.

At the same time other portions of the United States have fair prospects and it remains to be seen what will happen to the spring crop. In the prairie Canada has a big surplus of surplus wheat to sell. It would not do for prices to shoot sky high this morning against overseas buying. Canada's big hope now lies in active spring and early summer demand.

On the prairie it will be close to May 1st before the farmers are on the land. This would naturally tend to decrease acreage so there is quite a hopeful feeling in Alberta over the prospects of a fair crop. At the same time sub-soil moisture is deficient in the south while central and northern Alberta will be later than usual.

Orders must be scarce when two instrument dealers cut next on the main drag without scrapping.

GIRLS BRIDGE CLUB GIVE A SHOWER TO LEITA GORDON

Miss Kathleen Watkins entertained the Girls Bridge Club and a few friends at the home of Mrs. McKibbin on Friday afternoon. A jolly afternoon was spent playing cards after which the feature of the occasion, a lunch shower in honor of Miss Leita Gordon, bride-elect.

Miss Watkins presented Leita with a large decorated Easter lily filled with presents and the bride-to-be received many beautiful presents and the good wishes of all present.

The hostess then served a very delicious lunch and presented Miss Leita Gordon the Bridge Club prize, Miss Leita Gordon the victors' first prize for high score and Miss Embury the runner-up prize.

The party ended with the singing of "For She's a Jolly Good Fellow."

Snicklefritz

Satisfied Guest — "Well, waiter, that was a tip-top meal. You know what that means, don't you?"

Colored Waiter — "Yes, sir. It's one that you top off with a tip."

"How kind of you," said the girl, "to bring me those lovely flowers. They are so nice and fresh. I hope there is some dew on them yet."

"Yes," stammered the young man, quite taken aback, "I'm going to pay it off tomorrow."

Little Ivy, aged four, was in the kitchen all dressed up in cap and apron and gazed up at the movement of food and marbled, we have pretending to be one of them. They all sat down very solemnly to tea, and there was a long pause, when suddenly Ivy exclaimed, "Go on—go on, say something."

Cook—"Well, what shall we talk about?"

Ivy—"You know, you know—the Misses."

It's not the big dog in the fight, but the big fight in the dog.

Old Time Resident of Carbon Dies

Friedrich Oldhamer, 79 years of age, died at the family residence, 418 Ninth street northwest, Calgary, early Tuesday morning.

The late Mr. Oldhamer was born in All-Prendental, North Dakota, and came to Carbon in 1881, farming there for 55 years. He came to Carbon in 1909, where he farmed for 16 years, retiring in 1925 and moved to Calgary where he has resided since.

He is survived by his wife, Mary Calverley, three daughters, Mrs. K. Schell, Mrs. Scher and Mrs. A. Howard, all of Calgary; six sons, Gustaf, Harry, Walter, and Fred, Jack, Julius, Adam and Sam, all of the Carbon district.

Funeral services will be held today at Zion United Church, Calgary, at 1:30 o'clock. Rev. A. Kujala, assisted by Rev. P. L. Hultinen, officiating. Services will also be held at Carbon Baptist church, Wednesday afternoon, at 2 p.m. Jacques Demidoff residence is in charge of the arrangements.

**WEDNESDAY HALF-HOLIDAY
STARTS NEXT WEEK**

The week's half-holiday will commence next Wednesday, the first of business days in May. All offices of business (including the elevators) will close at 1 p.m. on this day during the summer months.

TABER FARMER FATALLY HURT

Frederick Bennett, farmer, residing 12 miles north of Taber, was the victim of a fatal accident Saturday morning, when he was run over by his tractor. One of his horses with the butt end of his plowstick, the animal kicked and the prongs of the fork were driven into Bennett's windpipe, severing the trachea. He died shortly thereafter.

URGENT M.L.A.'S TO PROVIDE ALERT A WITH BETTER ROADS

Modern hard surfaced roads form a primary and basic need of this province. Nothing will prove a greater impetus to tourist traffic than highways of such construction.

Any motorist driver knows the delight of reaching a hard surfaced road particularly after having difficulties on other highways. Just 50 per cent of the pleasure of holidaying is found in the condition of the highways, that is, providing it is good, and 100 per cent disappointment if a trip can be had to a bad road. Is there anything that will keep people away from some places more than the "knows" of a route that is honeycombed with driving problems?

Now that members of the legislature are considering the appropriation for road maintenance and new construction for the present year, the need of modern and surfaced roads should be impressed upon them strongly.

Now is the time to tell members in clear emphatic terms that public money should be expended in a way that will give the most satisfactory and most permanent benefits. They should have it brought clearly to their attention that the tourist business of the future, benefiting farmers, rural and city business and all other activities throughout the province, will be measured by good highways.

The Alberta Motor Association has conducted a campaign year after year for modern highways in this province. It is continuing to do so firmly of the belief that this policy will put Alberta, with its wonderful attractions, firmly upon the tourist maps of this country.

The school baseball team is putting in some heavy practice for their game with the Village boys next week.

Personalographs

Mr. and Mrs. E. Sellens of Carstairs spent the holidays with Mr. and Mrs. C. H. Nash.

Mr. Moorhouse was a Calgary visitor Thursday last.

Mrs. Jas. Smith spent last Thursday in Calgary.

Mr. and Mrs. Harley Davidson are spending Easter week in Edmonton attending the teachers' convention.

Miss Zona Felsheim is spending the Easter holidays in the village.

The school pupils are now enjoying their Easter holidays.

Alex. Hied, Sr. was a visitor to Calgary last week.

Mr. H. C. Willson and son Bobby, Phone Trumbly and Mrs. J. Grier were Thursday visitors to Calgary.

Chas. Smith has joined the staff of the Bank of Montreal.

The 115 draw at the show last Thursday was won by Joe Wink, who unobscuredly stayed at home that evening. The two 55 draws were won by Len Hay and Nick Rogers. Nick was "born on the spot" but Len is another man who earns his money by the sweat on his brow.

The baby pulled brother's hair until he yelled from the pain of it. The mother scolded the weeping boy.

"Of course, she doesn't know how badly it hurts." Then she left the room. She hurried back presently on hearing a frantic scuffling from the baby. "What is the matter with the matter with her?" she questioned anxiously. "Nothing" tall brother replied contentedly. "Only now she knows."

HON. F. S. CRISDALE'S MEASURE
TO PREVENT SOIL DRIFTING

Compelling farmers to take steps to prevent soil drifting and providing for drastic penalties, a bill entitled the Control of Soil Drifting Act has been introduced in the legislature. It is sponsored by Hon. F. S. Crisdale, minister of agriculture.

The bill requires both the owner and occupier of and which is being summerfallowed in cultivated according to any of the following methods:

(a)—By summerfallowing and cropping the land in alternate strips of not less than 20 rods in width, parallel to the prevailing direction of wind liable to cause soil drifting.

(b)—In the case of summerfallowing the maintenance of two strips of stubble or cropped land and two strips of summerfallow in each strip at least ten rods in width and parallel to the boundaries of the said property.

(c)—By seeding upon the land a covering crop of straw sown not later than August 15th using for that purpose not less than 20 pounds of seed an acre on all the land which is under summerfallow.

(d)—By maintaining a strip of natural or planted tree growth at least three rods in width within 20 rods and parallel with each boundary of the property.

Persons found guilty of violating the act will be liable for damages up to \$500 for each quarter section upon which the drifting occurs, or if the parcel is less than a quarter section, for a proportionately less sum.

The act comes into force on March 1, 1936.

Sam Garrett and Frank Barker were business visitors to Calgary last Saturday.

J. M. McDonald, public school teacher left to spend the Easter holidays at the Pacific coast.

Robert Wise of Calgary is spending the Easter holidays with his grandparents, Mr. and Mrs. Alex. Reid, Sr.

Walter Williamson and family motored to Calgary on Friday returning Saturday.

Mr. and Mrs. Ottie Schellie spent Easter Sunday the guests of Mr. and Mrs. Ed. Griffith in Rockyford.

Mr. and Mrs. Aaron Klassen spent the weekend holidays at Fort Saskatchewan.

Mr. H. O. Burch of the Acme Creamery was a business visitor in Carbon, Monday.

CHRIST CHURCH, CARBON

Services will be held as follows: 1st and 3rd Sundays in month, 11 a.m. 2nd and 4th Sundays in month, 7:30 p.m. 1st Sunday in month by arrangement.

REV. S. EVANS, in charge.

Sam Garrett and Frank Barker were business visitors to Calgary last Saturday.

J. M. McDonald, public school teacher left to spend the Easter holidays at the Pacific coast.

Robert Wise of Calgary is spending the Easter holidays with his grandparents, Mr. and Mrs. Alex. Reid, Sr.

Walter Williamson and family motored to Calgary on Friday returning Saturday.

Mr. and Mrs. Ottie Schellie spent Easter Sunday the guests of Mr. and Mrs. Ed. Griffith in Rockyford.

Otto Giettle has taken a position in Garrett's Garage and commenced work Monday morning.

Mr. and Mrs. Thos. Johnson left last week for Vancouver.

Several golf enthusiasts have been visiting the daily round and report the course in a very poor condition. Interest in the royal and ancient game seems to be reviving in Carbon, and a number of business men are surprising the whereabouts and are putting the younger generation to work fixing it up.

Soil conditions in most of the districts of the province south of Edmonton have been fairly dry, with not a great amount of reserve moisture but recent heavy snows will serve partially to remedy this defect. The northern districts appear to be satisfactory in this respect.

A good story of the enjoy-ment of the late Theodore Roosevelt is told. He was addressing a large crowd.

"Mr. Roosevelt, why are you a Republican?" asked the lecturer.

"Because my father and grandfather were both Republicans," was the reply.

"What would you be if your father and grandfather had both been thieves?"

"I'd be a Democrat," Mr. Roosevelt replied.

A little boy who went to school for the first time had returned home and his father inquired how he liked it.

"It's all right but they ask too many questions," said the lad. "First they asked me where you were born and I told them. Then they asked me where mother was born and I told them but when they asked me where I was born I had to tell a lie."

"Why?" asked his father.

"I didn't want to say I was born in the Women's Hospital and have them think I was a sleazy so I told them it was in Maple Leaf Gardens."

GET YOUR REPAIRS FOR JOHN DEERE MACHINERY FROM

PAUL'S SERVICE STATION
JOHN DEERE AGENTFROM A STAFF OF SEVEN
TO SIX THOUSAND STRONG

From less than a corporal's guard to the equivalent of six regiments—this graphically illustrates the growth of the Bank of Montreal's staff in 117 years.

On the 23rd of August, 1817, the first four employees of the Bank of Montreal were appointed. They were the cashier, an accountant, a paying teller and a second clerk. Shortly afterward a discount clerk, a second bookkeeper and a porter were added.

These seven constituted the original staff when the modest establishment on St. Paul Street in Montreal

opened its doors on Monday, November 3rd—an establishment which was destined to play a conspicuous and beneficial part in the development of Canada's resources.

Throughout the many decades that have followed, the Bank of Montreal has made increasing effort to provide a banking service always adequate to meet the requirements of Canada's development.

The original staff of seven has grown to 6,500, loyally serving the public through 500 branches extending from sea to sea—and overseas.
